REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record teaches an information processing apparatus comprising: a main body [122] including an operation unit [124]; and a display unit [126] including a display panel [214] for displaying information, a light source [130] disposed at the upper side of the display panel, a reflective plate which reflects light emitted from the light source [302], an optical waveguide which guides the light emitted from the light source downward [202], wherein the reflective plate reflects the light emitted from the light source to illuminate the operation unit [see figures]. The prior art of record fails to teach or suggest, in combination with the limitations supra, a light source disposed at the upper side of the display panel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
